

Claim your £250 installer bonus

**Take advantage of our brand new incentive scheme:
install a Daikin Air Source Heat Pump and get £250.**

£250 bonus for installers

We're offering an incentive payment of £250 for each Daikin Air Source Heat Pump installation you register with us using the Boiler Upgrade Scheme (BUS) or the Home Energy Scotland schemes.

How does the scheme work?

We are offering MCS-accredited installers £250 for every Daikin Air Source Heat Pump fitted. You'll find the full T&Cs on our website, but here's an overview of how it works.

- › Installers will receive £250 for each Daikin ASHP fitted under the BUS or the Home Energy Scotland schemes.
- › The offer is only available to MCS-certified contractors.
- › The £250 payment is triggered when you register the ASHP with Daikin.
- › If you wish, you can choose to pass this payment on, in whole or in part, to your customers.
- › The scheme applies to all Daikin Air Source Heat Pumps installed between 21 June 2023 and 31 March 2024.

A huge opportunity for you

Daikin is committed to giving you everything you need to install the next generation of renewable heating systems and energy-efficient heat pumps. And we're investing heavily to generate leads for our installers. Unlock a wealth of opportunities today.

New to Daikin?

If you've not installed one of our Air Source Heat Pumps before, you'll also be eligible for:

1. Free local heat pump training
2. £100 off Easy MCS accreditation
3. 40% off the first heat pump unit purchased at your local centre
4. Commissioning support for the first three ASHP installations
5. End-user warranties for your customers (so you can concentrate on installs)
